Clarifications:

* Costs are subject to legal taxes.

** For USDA/NOP certification the costs of; laboratory analysis, the purchase of reagents for the analysis of soil, tissue and fruit samples from the critical contaminant risk points that the inspector finds at the time of the inspection will be paid by Mayacert.

¹The cost of the opinion is estimated at US\$120 per case, however, if in the course of the certification process the time to evaluate the reports and additional information and make the decision on the certification status exceeds a total of 4 hours of work an additional cost of \$25 per hour will be charged to the cost of certification. The cost of the certification will **not** depend on the result of the certification.

^{two} The cost/day of inspection of US\$200.00 can only be modified if, due to the size of the production unit, the inspection time is less than one day and it can never be less than US\$100.00.

³ The breakdown of expenses in this table is not applicable to the Small Producers Symbol (SPP), since the cost for this service will be a global cost of US\$ 500.00 per day.
